CRM

IN PLAIN ENGLISH

A single, organised record of every customer and enquiry.

> So nothing slips through the cracks, and anyone on the team can see the full picture.

POS

IN PLAIN ENGLISH

The till and card payment system.

> Connected to your stock and accounts, so every sale is recorded once and reported correctly.

Automation

IN PLAIN ENGLISH

Getting your systems to pass information to each other on their own.

> So nobody has to type the same thing twice.

Cloud

IN PLAIN ENGLISH

Your software and data stored online, not on one machine in the back office.

> Accessible wherever you work, and not lost if one computer fails.

Ask us anything. We'll answer in plain English.

Or start with a €500 systems audit.
